Group Assignment  
Group 05

## Sustainable development goal: Gender Equality

## **Issues**

1. Lack of technological education among girl children.
2. Lack of knowledge regarding the laws that have to protect women.
3. Lack of experience on different types of jobs in the job market.
4. Failure to translate female educational achievements into the labor market achievements because most of the women abandon their jobs after getting married and then there will be no use of their educational achievements.
5. Lack of personality.
6. Women afraid of expressing the inequality they faced.
7. Traditional barriers for women education.
8. Lack of women's political participation.
9. Not educating girls about the sexual education from their early age.
10. Not concerned about health issues and ashamed of meeting doctors physically for taking medicine.
11. Sexual harassment.

## **Solutions**

- A. Conducting online sessions using online platforms.
- B. Creation of an app including the laws and regulations that every woman needs to know.
- C. Offer more online job opportunities for women as they can do their work easily from home with balancing their household work via online platforms.
- D. Sharing the inspiring stories of famous female role models through online mediums.
- E. Conduct online educational courses on self-employment and sewing, cake, cookery classes.
- F. Empower women through social media platforms in order to increase the women's participation to the politics.
- G. Conducting online webinars to educate girls about the sexual education from the early age.
- H. Introduce GPS tracker device to share location.
- I. Create an app or website to input symptoms and give a general idea about the health issues.
